RE: DOWNTOWN DENTISTRY IS OPEN: DENTISTRY AS ESSENTIAL HEALTH CARE SERVICE

Dear Patients & Families,

The Ontario government has deemed Dentistry as an essential service. Maintaining your oral and overall health during these times is hugely important. Downtown Dentistry continues to remain open and assures you that your important upcoming appointment is safely scheduled.

Our enhanced screening and safety protocols include temperature and verbal screening, medical grade HEPA air purification, changing protective gowns for every patient, acrylic barriers, N-95 masks, safety goggles, face shields and very strict sterilization allows our dental office to be very safe.

Furthermore, our dentists are also offering online dental consultations via Zoom tele-conferencing for our new and existing patients.

Please email us at info@downtowndentistry.com or call us at (416) 977 8877 to book your appointment.

We will continue to monitor all public health regulatory guidelines/recommendations and look forward to seeing you at your next appointment.

Thank you for patience and loyalty throughout this ordeal.

Be well & stay safe,

Dr Amelia Chan, Associates & Team
